Template

Empathy map canvas

Use this framework to empathize with a customer, user, or any person who is affected by a team's work. Document and discuss your observations and note your assumptions to gain more empathy for the people you serve.

Develop shared understanding and empathy

Summarize the data you have gathered related to the people that are impacted by your work. It will help you generate ideas, prioritize features, or discuss decisions.

WHO are we empathizing with?

Who is the person we want to understand?
What is the situation they are in?
What is their role in the situation?

Person: Students, researchers, travelers

Situation: Need clear heritage data

Role: Data explorer / learner

GOAL

What do they need to DO?

What do they need to do differently?
What job(s) do they want or need to get done?
What decision(s) do they need to make?
How will we know they were successful?

Use dashboards Analyze sites

Compare regions Decide research focus

What do they HEAR?

What are they hearing others say?
What are they hearing from friends?
What are they hearing from colleagues?
What are they hearing second-hand?

Data is hard to understand

No single reliable source

Dashboards are useful

What do they THINK and FEEL?

PAINS

What are their fears, frustrations, and anxieties?

Complex data

Too much info

GAINS

What are their wants, needs, hopes, and dreams?

Simple dashboard

Fast insights

What other thoughts and feelings might influence their behavior?

Prefer quick, visual understanding.

People using dashboards Articles & research

Static reports Large datasets

What do they SEE?

What do they see in the marketplace?
What do they see in their immediate environment?
What do they see others saying and doing?
What are they watching and reading?

What do they SAY?

What have we heard them say?
What can we magine them saying?

"I need visual insights."

"This data is confusing."

What do they DO?

What do they do today?
What behavior have we observed?
What can we imagine them doing?
